

Environmental & Social Policy

Sustainability refers to not only corporate social responsibility practices but the adoption and application of environmentally responsible practices, sound social policies and good governance structures in order to minimize risks and volatility, whilst enhancing development impact of corporate activities.

At AsiaBio, the Group takes into account the social, economic and environmental aspects and ensures a good balance of these aspects thus ensuring committed responsibility to our stakeholders. The Group integrates Sustainability practices into our policies and practices. As a technology incubator with focus on green energy and biotechnology, we are duly committed to our Sustainability Practices through the following principles:-

- a) Ensure operational policies, be it manufacturing or R&D activities, reduce waste and prevent pollution.
- b) Compliance to relevant environmental and related legislation.
- c) Ensure a safe and healthy working environment.
- d) Promote environmental awareness to our suppliers, sub-contractors and employees.
- e) Periodic review of our policy and actual performance to ensure achievability of objectives.
